Starring veteran actresses including Leleti Khumalo, this season of Soul City is set to keep you glued to your seats.

The launch, which saw the series' actors including former Generations actor Dumisane Mbebe and Florence Masebe who used to be on Muvhango, dressed to the nines was glamorous and heart-warming.

The mood became all the more intriguing when Lebo Mashile hit the stage and rendered poems that left guests in tears.

Zahara later serenaded the crowd with some favourites from her debut album including Ndiza and Loliwe.

This youngster from the Eastern Cape, whose real name is Bulelwa Mkutukana, is as brilliant performing live as she is on the radio.

With over 200 000 units already sold, we are sure Zahara is set for even higher heights!
